Proposals

FOR Publishing by Subscription, and now ready for the press, a series of historical volumes, which when finished will assume the title of
Universal History Americanized;
Or, an historical view of
Europe, Asia, Africa and America,
from the earliest records to the nineteenth century—with a particular reference to the state of society, literature, religion, and form of government in the United States of America.
BY DAVID RAMSAY, M. D.
"Life is so short and time so valuable, that it were happy for us if all great works were reduced to their quintessence." *Sir William Jones.*

PROSPECTUS.

ASIA.

The Asiatic part of this work contains a general view of the antediluvians—of the general deluge—of the re-settlement of the Globe after that great event—of the primitive postdiluvian nations which were formed in Asia, the cradle of the world. Their various ramifications, revolutions, and of the general course of Empire.

AFRICA.

The African part, contains a concise history of Egypt, Carthage, Numidia, Mauritania, Abyssinia, of the Piratical States, and the Hottentots, with a grouped view of its uncivilized settlements.

EUROPE.

The European part, contains the history of Greece and Rome, from their origin to their dissolution—of the various nations which were conquered by them—and of the nations by which the Romans themselves were finally conquered, and of the nations which were formed from the fragments of the Roman Empire, and the various revolutions of the latter, together with a view of the nations which never were subjected to the Romans.

AMERICA.

The American part, contains a general history of the Western continent, under the heads of Free, European, and Aboriginal or unconquered America. The first contains a history of the United States, from their first settlement as English Colonies, till the present time.—The second, of all parts dependant on Europe.—And the third, of all that are still owned by the Aborigines.

It is expected that the whole will be comprised in 10 or 12 octavo volumes, of between four and five hundred pages each—to be printed in Philadelphia, on good paper and fair types, for $3 1-3 per volume, in sheep binding, or $4 1-3 Calf Gilt, to be paid for on delivery.

AUTHORITIES.

This work has been in contemplation upwards of 40 years. The project of it was conceived in 1786, on reading the Universal History, then recently edited in 60 volumes, by a society of gentlemen in England. The original idea of extracting the quintessence of that voluminous work, which contained the most complete system of history the world had then seen, has ever since been enlarging and improving by an attentive perusal of the histories written by Robertson, Hume, Gibbon, and other modern authors—of the Asiatic researches—of the works of Sir William Jones, and other learned Orientalists—the publications of intelligent travellers, who, in the course of the last half century have explored almost every region of the Globe. These collectively have thrown a blaze of light on countries comparatively unknown, and on portions, both of ancient and modern history which were confused and obscure at the period when the writers of the Universal History published their work. The arrangement of materials collected from these sources commenced in the year 1780, when, in consequence of the surrender of Charleston to Sir Henry Clinton, the author was suddenly released from a sea of business and sent as a prisoner of war to the British Garrison then in St. Augustine, and there confined for eleven months, without any peculiar employment. Steady progress has been made for the last ten years in correcting and transcribing the work for publication.

UNITED STATES.

The History of the United States is given at full length—that of foreign countries is more or less expended or contracted in proportion to the intrinsic importance of each—its tendency to illustrate portions of Holy Writ—the Greek and Latin Classics—and also in proportion to its connexion with the U. States, or as furnishing useful practical information to its citizens, or as the paternal soil of their ancestors.

The above sketch of the nature and objects of this immense work, which has occupied the attention of the Author for upwards of 40 years, was found among his papers, and is now given to the public in his own words. Since that period, a few chapters have been added by the Reverend SAMUEL STANHOPE SMITH, which brings it down to the close of the last war.

The publication commences with a third impression of the History of the U. States, in three volumes, which is all that has ever appeared. The whole will not be delivered under 15 or 20 months. It is proper to state, that the gentlemen who have the direction of it are neither booksellers nor printers, and receive no pecuniary consideration for their trouble—but are willing to make the necessary advances to carry it into execution provided the sale is warranted by public patronage. The profits arising are to be appropriated for the support and education of his children, four of each sex: to them its success is a matter of deep importance.

ON TASTE IN FEMALE DRESS.

Personal neatness may almost be classed with the cardinal virtues. It was an observation of Lavatar, that persons habitually attentive to dress, display the same regularity in their domestic affairs. "Young women," says he, "who neglect their toilette, and manifest little concern about dress, indicate in this very particular, a disregard of order, a mind but ill adapted to the details of house keeping; a deficiency of taste, and of the qualities that inspire love; they will be careless in every thing. The girl of eighteen, who desires not to please, will be a slut and a shrew at twenty-five. Pay attention young men, to this sign; it never yet was known to deceive." Husbands as well as lovers are gratified and delighted in seeing their partners handsomely adorned; and I am well convinced that many a heart, now roving in quest of variety, might have been detained in willing captivity at home, by the silken chains of personal decoration. It is one of the moral duties of every married woman always to appear well dressed in the presence of her husband. To effect this, expensiveness of attire is by no means requisite. The simple robe may evince the wearer's taste as nobly as the most gorgeous brocade.

The natural figure of a woman is of the first importance in determining the style of her dress. What sight, for instance, can be more preposterous than that of a short, thick, broad-shouldered, fat female in a spencer? It has been observed too, that short women destroy their symmetry and encumber their charms, by a "redundancy of ornament;" and that "a little woman, feathered and furbelowed, looks like a queen of the Bantam tribe."

Nor is the substance of which dresses are composed unworthy of notice. Making due allowance for the season, that which will display, or soften the *contour* of the form with most propriety and effect, should always be preferred. The Roman ladies had their *ventus textilis* and their *linea nobula*—linen so fine as to acquire those names; and, from the transparent muslin, to the substantial silk, the merino and kerseymere, our variety of texture is almost infinite. Thus, whilst the sylph-formed maiden may be allowed to float in gossamer, the more matured and portly female should adopt a fabric better suited to her size, her figure and her time of life.

There is nothing, perhaps, more difficult of choice, or more delusive to the wearer, than colors; and nothing more offensive to the educated eye, than colors ill-chosen, or ill-combined.

"Let the fair nymph, in whose plump cheeks is seen
A constant blush, be clad in cheerful green:
In such a dress the sportive sea-nymphs go;
So in their grassy bed fresh roses blow."

It has been remarked, however, that grass green, though a color exceedingly pleasing and refreshing itself, jaundices the pale woman to such a degree, as to excite little other sensation but compassion in the beholder.

"——Maids grown pale with sickness or despair,
The sables' mournful dye should choose to wear;
So the pale moon still shines with purest light,
Cloth'd in the dusky mantle of the night."

Ladies of a pale complexion, I conceive, should seldom, if ever, wear a dress of an entire color. Their white drapery, at least, might be relieved, and animated, by ribbons, flowers, &c. of delicate tints; such as light pink or blossom color. On the one hand,

"The lass whose skin is like the hazel brown,
With brighter yellow should o'ercome her own."

She may even, without fear of offence, assume the orange, the scarlet, the cochineal, the flame color, or the deep rose; either of which will heighten the animated hue of her complexion, and impart a more dazzling lustre to her eye.

It is not within the province of an old man, Mr. Editor, to descend into the minutiæ of female attire, to prescribe the cut of a robe, the fall of a mantle, or the shape of a bonnet. These points may very safely be left to a consultation between the lady and her dress maker; the cultivated taste of the former regulating and checking the meretricious fancy of the latter. In the hope that the hints which I have offered may prove of some utility, I remain, &c. SENEX.

LATEST FROM THE SOUTHERN ARMY.

The following is an extract of a letter to a gentleman of this place, from an officer, dated

"*Fort Scott, March* 28.

I suspect Gen. Gaine's wreck will form the most striking circumstance of this campaign. Though there has been no scanty share of privation, of danger and of hardship, we shall have little to make a "Gazette" of—especially from the present force employed. There are now on the march to the Mickasucky town (about 60 miles from this post just below the Spanish line) about 3600 whites and 1400 Indians, besides a thousand mounted Tennessee troops, which are every moment expected. On our crossing the line, which the hostile party had been led to believe we would not do, the Indians scattered very much—Indeed I am inclined to believe, that most of those who have committed no actual hostility against us have dispersed themselves to avoid the impending storm.—The Mickasuckies, who are the most powerful town which was considered hostile, (rated at 500 warriors) are said to have returned to their homes; and it is supposed by many, will yield without a stroke. The same terms which were formerly offered, "the giving up the murderers," will now be adhered to on our part. I do not think there are now 500 Indians in arms against us.

"The old Negro Fort has been made tenable, merely I believe as a place of deposit."

Within the last four days, our climate has shifted thirty degrees of latitude further north. On Sunday we had snow; and yesterday morning (20th April) ice! [*ibid.*

GIBSON, who was convicted at our last fall circuit court of the murder of Peacock, but who obtained a new trial in consequence of the low state of health to which he was reduced, was again put to the bar, during the last week, in this city—and on Saturday, the jury returned a verdict agnst him of *Murder of the first degree.* Some exception, we learn, has been taken by his counsel ...which will probably go up to the General Court. [*ibid.*

CREEK COUNTRY.

The following letter from an officer in the Georgia detachment, to the editors of the Augusta Chronicle, gives a bird's eye view of that portion of the creek country, &c. over which our army has marched since the commencement of the present campaign.

"*Fort Scott, March* 17.

"The country from Hartford here, is as far as I can judge, poor in the extreme; but as I travelled by water from fort Early to this place, I cannot well judge. The distance from the agency to fort Early is about 200 miles by water, 90 by land—from fort Early here, about 100 by land, and 250 by water. The first two days' run from fort Early we had a very narrow river, rapid current, numerous small islands, abrupt windings and the whole rather dangerous navigation. The third day the river became wider, the current more gentle; the low lands, which before had been very narrow and poor, more extensive and fertile, and the country began to appear more desirable. For about 30 miles by land above this, the navigation will be tolerably good for small keel boats; but above that it can never be made good. It may possibly be as good as the Oconee, to Milledgeville, as high up as the agency; but the land on it will never afford any thing like a respectable settlement. Between the agency and Thirty-mile creek, 30 miles above this place, from there to the mouth the low grounds are good; and below here, between this and the mouth of the Appalachicola, is some of the finest country in the United States, but the advantages of navigation are not equal to those of Tombigby and Alabama.

"This fort is situated on a bluff on the western side of Flint river, 12 miles above its confluence with the Chatahoochie, and has complete command of the river, with strong defences; but from the hostility of the Indians, and the Spaniards having possession of the mouth of the river, it will be many years before the lands can be rendered valuable."

Madras, 28th June, 1817.

Copy—To the President and Members of the Marine Board.

Gentlemen—Being commander of the private ship Hibernia, of London, and lately arrived in the Roads. I beg leave to make known to you, that on my late passage from England, I touched at the Island of Tristran de Cunha, to get water, on the 9th of April last, and that after having taken our departure from there on the 12th, at half past eleven A. M. having run 357 miles per log, on an E. by S. course, with a free wind all the time, fell in with three sunken rocks, one of which we very narrowly escaped being on—there appeared to be about 9 feet water on the one had close along side, lat. 37, 51 S. lon. 4, 42 W. The three rocks form almost a triangle, and all within the bounds of a cable's length.—Being so much alarmed at the time, and the ship going at the rate of seven knots and no opportunity of sounding on them. I am fully convinced of the facts before stated, as my first officer, and several of the watch on the deck at the time; and am, gentlemen, your most obedient servant,

(Signed) JOHN LENNON.

By order of the Marine Board,
Madras Board of Trade Office.
(Signed) S. GIRATKIN, Sec.
4th August, 1817.

Philadelphia, April 20.

The trial of John Craig, for the murder of Edward Hunter, esq. on the 19th day of July last, at Newton, Delaware county, commenced on Tuesday last, at Chester, before judge Ross, and continued till Saturday, when the jury returned their verdict GUILTY, and he received the awful sentence of *death.*

It is much to be regretted, that the Secretary of War, in order to the admission of a claim for the pension, requires of the applicant an oath which the Act of Congress does not, viz. "that from his reduced circumstances he needs the assistance of his country for support." This condition touches the high spirited feelings of some old heroes, who really need and deserve that relief, but who cannot stoop to sue for it *in forma pauperis.*

From the Boston Centinel, April 11.

THE SEASON.

For nine or ten days the weather has been unusually inclement, attended with snow, rain and sleet; and since the last Sabbath the wind has not varied two points from N. E. Some fears are entertained for the safety of vessels on the coast, as neither sun, moon, nor stars have been visible for nine days, and of course no opportunity afforded for taking observations. But it is an "ill wind indeed which blows good to no one." The rains, &c. have mellowed the earth for the share of the ploughman, given the grass a strong rooting, and filled the springs to repletion

As far south as Charleston, where peas were in blossom in the middle of March, they now complain of winter lingering in the lap of spring.

The recent freshets it appears have injured the navigation of the Hudson—the commissioners of survey having reported that is has been ascertained by actual soundings that there is three feet less water at the upper overslaugh [flats] than during the last season.

ABSCONDED,

On the 2d instant, from the good people of Boston, the *Sun*, the *Moon*, and the *Stars*. The first made his escape early in the morning, immediately after breakfast, and his wife eloped the ensuing night with all her children, and it is feared that none of them will ever return. They carried with them all the comfort and pleasant feelings they could lay their hands upon—stealing all the smiles of beauty and all the *jeux d'esprit* of wit. The town is literally in tears for their absence. If they come back of their own accord they will be forgiven, and thanked in the bargain. The dress of the Sun is *uniform*, at least in the British service. The Moon may be known by her changes, like a coquette, and cannot be described. The cause of their departure is unknown, and their absence is cruel, seeing the reliance which is placed on them by the police, who disdain all substitutes for these lamps of the heavens. Apply at the Exchange Coffee House. They have since been seen.

Charleston, April 4.

From a New-Orleans paper of the 28th February it would appear that the condition of their streets was as bad as ours were a few weeks ago. The enormous tax on commercial movements, in the item of drayage, exceeded that to which we were subjected. The following are stated as the prices: 75 cents per bbl for flour, a distance of 500 yards; 100 a 125 cents per bale cotton do.; $3 a $4 per hhd. tobacco do; $2 a $3 per hhd. sugar do; and other articles in proportion.

SINGULAR LIGHT IN THE HEAVENS.

On the night of the 4th inst (April) about fifteen minutes past eight o'clock, a light appeared to rise from the horizon about the direction of 30 degrees N. W. from Carlisle, Pennsylvania, in appearance like the reflection of the moon when rising and before it can be seen, only more vivid, and coming and going like a half extinguished candle. During its brightest appearance, a kind of streamers or shadowy forms seemed to pass through the light westwardly, and as the whole horizon was lighted, the shadows or streamers seemed to darken the horizon opposite to them as they passed through. What is still more singular, the light moved a N. E. course; it continued near ten minutes, and terminated about N. E. from where it was first perceived.

The writer had every opportunity of observing this phenomenon particularly, being accidentally on an eminence, which commanded a view of the horizon in almost every direction.

It may be recollected that the night was extremely dark and rained heavy which gave the light a more striking appearance. Can our men of science account for this phenomenon? The facts are as stated, and may be relied on.

From the N. Y. Daily Adver. April 17.

The recent death of the king of Sweden, and the accession of Bernadotte to the throne of that kingdom, may present to the consideration of the great nations of Europe a very important question.—Bernadotte is the only sovereign left in that quarter of the globe who may be called by the old dynasties *an illegitimate.* The Bonaparte race are dethroned, and somewhat scattered—Murat is dead—Eugene Beauharnois does, indeed, by his Bavarian connexion, preserve considerable distinction, but he is not in possession of regal power. The king of Sweden, who was deposed to make way for his uncle lately deceased, is by marriage nearly related to the emperor of Russia. Whether Alexander feels any very strong sympathy for him in his degradation, we do not know. The important services rendered by Bernadotte to the great alliance in 1813 certainly furnish him with a strong claim upon his brother monarchs, whose interests he so materially subserved and promoted in that memorable year. Bernadotte is an able man and an accomplished officer, and, as far as we have observed, has conducted the affairs of that nation with skill and prudence. But, he is a foreigner, and a Frenchman, and we should not be surprized if the old spirit of the Swedes should be chafed into excitement by these considerations. The Swedes, when thoroughly drilled and well commanded, are excellent soldiers. Under Gustavus Adolphus and Charles XII. they were formidable to the rest of Europe. But, if the other powers were to become engaged against them, it would be impossible for them to resist with any prospect of success. The modern fashion of embodying such myriads of men in the field would at once overwhelm the Swedes. The nation is also poor and exhausted. If Bernadotte should be permitted to sit quietly on his throne, the probability is, that he would retrieve the affairs of the nation in a few years, especially if the general peace should be preserved.

VERY LATE FROM FRANCE.

The fast sailing ship Comet, Captain Center, has arrived at New London in 20 days from Havre-de-Grace, with a very valuable cargo of dry goods, and 45,000 specie dollars, to Ripley, Canter & Co. and Thaddeus Phelps & Co. owners and others. Sailed March 28, with ship Golconda, and schr Maria; both for this port; brig Tybee, Cobb, for Savannah; ship James M. Fleming, for Philadelphia; ship Gen. Knox, ——, for N. Orleans. Left, among others, ship Adami, and schr Spartan, for N. York the next day; Manchester Packet, for do in 15 days. Passengers, Mr. Jones, Capt. M'Kenzie, of Philadelphia, and fourteen French passengers. Spoke nothing.

The letter bag was received here this morning and we have Paris papers to the 20th ultimo.

Three per cent. consols, 78, at London March 13.

New-York papers of the 16th of February, were received in London the 11th ultimo.

It was reported in London on the 3th March, that the Spanish minister had offered to give up the Floridas to the United States, for six millions of dollars; but the proposition was rejected, and only three millions were offered.

It appears from private letters, that the markets for American and colonial produce, had advanced a trifle.

The average price of wheat in England March 11, was 85s 8d.

Upland cotton, at Havre, March 28, was 53 to 56 francs. Rice 45 to 46 francs. Potashes 95 francs.

The Paris papers speak of the general rise of colonial produce, particularly coffee, which was 135 francs the quintal—Bourbon was 160.

On the 26th of February, at Bordeaux, the appearance of wheat was very fine.

A great stagnation in the sale of wines, had taken place in France, but the termination of the next month will fix the price of this article.

The long pending cause between Mr. Swan, an American gentleman, and Ducas and others, has terminated, ultimately, in favor of the former, who has recovered upwards of 600,000 francs.

An article from the Isle of Rhe, of the 6th of March, states that the tempest had continued seven days, and many vessels totally lost.

There have been severe gales on the coasts of France and England, the 4th and 5th of March; during which several vessels were driven on shore and lost. The brig Holland, from this port bound to Holland, was totally lost; and the Duke of Wellington, from Baltimore, had received damage

Letters from Deal of the 5th of March, enumerate numerous vessels which were lost the night before in a gale No Americans are mentioned

London, March 7.

A letter from Plymouth, dated on the 5th, gives a dreadful account of the hurricane. At noon, the time of writing the letter, the winds were blowing in a frightful manner, and a vessel was lost in sight of the port. The losses occasioned by the storm are incalculable. Far from moderating, the wind seems to increase; it is S. S. W. and S. W. every moment, and the squalls are so violent, as to blow people into the water. Within the memory of man, nothing like it was ever seen.

March 10.

Contrary winds and the storm have delayed for several days the arrival of the French newspapers. We may form an idea of the badness of the weather from the circumstance of the packets being afraid to go to sea.

March 11.

Letters from our principal ports of the latest date, continue to give the most afflicting details of the immense disasters occasioned by the late tempest.

March 13.

Funds.—3 per cent consols 77 7 8;—78 1-4 1-8; do. in acct. 78 1-8 1-2 7-8; 3 per cent reduced, closed; 4 per cent closed; 6 per cent 105 3-8 1-2 3-8.

To relate every day the scandalous scenes that occur at the elections would be wearisome to the reader, were it not that they manifest the proceedings of the opposition, for the purpose of endeavoring to obtain a majority in the new parliament Fists and clubs are made use of, and those who think that they can obtain votes by giving dinners, resort to that method.

The amnesty bill has passed the house of commons by the immense majority of 233 votes to 63. It will be long before the opposition will recover from so terrible a shock.

Prices at Havre, March 27.—Ashes, pearl, 70 a 75f; pot ash dull, but pearls scarce; coffee, Martinique and Guadaloupe green, 1 75 to 1 80. Coffee extremely scarce and in such great demand it is difficult to quote prices; St. Domingo and Havana would command full 25 sous, in entrepot; rice is very fluctuating, but sells readily at 46 francs; sugars in fair demand, for Jamaica 1s 5d to 1s 6d; dye woods dull; tobacco, Virginia, 67—50 to 90.

Cottons are in fair demand—uplands 55 to 56 sous; N. Orleans 57.

TO THE PUBLIC.

As the Building Committee of St. Paul's Church have felt it their duty to give public notice that they have (to use their own language) "dismissed me from their employment," and as the term is not the object, of that notice are calculated to injure me in the estimation of those unacquainted with me, I deem it proper that the public should be correctly informed in what way I have been "dismissed." The fact is, the committee had failed to make such advances upon my work as they had expressly stipulated to make, and which were necessary to enable me regularly to pay off the hands I had engaged; and in consequence of this failure, I informed them that unless they complied with their engagement I was unable to proceed—they still did not supply me with the money required, and I felt myself compelled to consider my engagement with them at an end. DR. WILDINS'
Celebrated Antibilious Pills.

THE subscribers inform the Public,
that they have purchased of Doctor
Wilkins his Receipt and the sole right to
make and prepare his Pills, known by
the name of Wilkins' Antibilious Pills.
These Pills have been sold in this city
and the neighboring country for the last
twelve years, and during that time have
acquired a character (for safe and effec-
tual operation) over all medicines of that
class ever offered to the public. Their
composition is known to and approved of
by several of the most eminent physicians
of this place. The subscribers, with a
view to extend their sale in the country,
and to render them an object to country
druggists and others, have reduced their
wholesale price very considerably; and
to accommodate individuals, will furnish
them for the future in whole boxes at 50
cents, and half boxes at 25 cents each.—
To prevent imposition from counterfeits,
each direction will be signed by Dr. Hen-
ry Wilkins, the original, and D. & C.
Keener, the present proprietors.

Notice.

IN the years 1784—5, and part of
1786, a certain Samuel Galt kept a
store in Port Tobacco—in '86 he gave up
his books and goods to trustees in Balti-
more for the benefit of his creditors. The
said trustees sold the goods and divided
the proceeds among his creditors there,
they paying, as I have been told, ten
shillings in the pound. Some years af-
ter the trustees sent his books to me,
with authority to collect what was due
thereon, and pay it over to his creditors
who resided in this county, and also to
sell a small lot of land he held. I have
long since collected all I could on the
books, and sold the land in 1796, but ne-
ver received the money for it until a few
days ago; and I am now ready to pay
over what there is to his creditors who
resided at that time in Charles county,
and have fixed on Monday, the 17th of
August next, to make the final distribu-
tion—it will not amount to ten shillings
in the pound with interest. I therefore
wish all claimants to send in their claims
duly authenticated against that day.

I find on the books a balance due a
Rev. Mr. Stewart, (his first name does
not appear) who was then of this place,
and have understood emigrated to the
southward; also a certain Nicholas and
Valentine Pears, who were then mer-
chants in Port Tobacco. I know not
where either of them are, but wish them
or their representatives to send in their
claims without delay.

low, about 5 feet 5 or 6 inches high—his
clothing not known, with the exception
of a pair of blue or black pantaloons, of
velvet or corduroy.

Ben was last year hired to Mr. Charles
Scott, of Alexandria, (who kept the live-
ry stable) to which place it is presumed
he may have gone, with an intention of
getting on the northward. I will give for
his apprehension on this side of the Poto-

Land for Sale.

THE Subscriber wishes to dispose of
the whole or a part of a tract of
LAND, containing between 6 and 700
acres, lying within 5 miles of Alexan-
dria and 4 and a half from the Washing-
ton bridge, and divided into four parts
by the Leesburg road and the turnpike
from the Washington bridge to the Little
River turnpike. No. 1 contains about 60
acres, has a fine orchard and some young
wood, and is partly enclosed.—No. 2,
containing about 80, and No. 3 about 150
acres, lay nearest to Alexandria, and are
entirely covered with a young growth of
hickory and oaks with some wood—these
three parts lay admirably for cultivation,
and the latter has on it one of the finest
springs in the county. No. 4 has on it
a two story frame house with two large
rooms on a floor, kitchen, laundry and
smoke house, together with several tene-
ments, one of which, situated at the
junction of the two roads, is an excellent
waggon stand, well known by the name
of Bonts's Tavern. There are on it al-
so, several orchards, some fine springs,
and a never failing stream sufficient for
water works: part of it is in cultivation
and tolerably well enclosed, with a suffi-
ciency of wood. The three first parts
may be had separately, or the whole to-
gether at a very moderate price, on the
following terms, viz. One-fourth cash—
one fourth on the first September next,
and the balance in two equal annual pay
ments thereafter, with interest—Pos-
session will be given the purchaser im-
mediately. The title is good and free
from encumbrance. The premises will
be shown by J. B. M'Farling, living there
on, and any application directed to me,
in Washington City, will be attended to.

350 Acres of Land for sale.

The subscriber wishes to sell 350 acres of LAND in the upper part of Prince William county, Va. lying immediately on the road leading from Haymarket to Leesburg, and about 3 miles from Aldie mills, from which latter place there is a turnpike road to Alexandria, distant 33 miles. One half of this farm is covered with a heavy growth of timber, such as white oak, black oak, hickory, locust, &c. The buildings are all new and in good order. As there is a saw mill erecting on an adjoining farm the timber may be converted into plank with convenience. This land is well watered, and none more susceptible of improvement or better adapted to the use of clover and plaister. Persons desirous of purchasing would do well to call and see it, as a great bargain may be had For terms apply to the subscriber living on the premises.

French Creek Boarding School.

The following is published for the information of Parents:

HAVING long believed that a School on a plan different from most others in many respects, would be beneficial to society, and apprehending that with all its cares, and the responsibility inseparable from such a concern, I could more cheerfully devote my time to the education of children than to any other business, I have concluded to establish a BOARDING SCHOOL for GIRLS—With this view I have purchased the FRENCH CREEK FARM, four miles east of the yellow springs, on the Norristown and Philadelphia road, situated in Pikeland and Vincent townships, Chester county, twenty-seven miles from Philadelphia, combining many conveniencies for the support of such an institution; and having let the farm, etc. in a way calculated to supply the family with provisions, I propose to devote my attention, with the aid of suitable assistants, to the education of the children who may be placed under my care.

In selecting the pupils, it is not proposed to be governed entirely by their ages, nor to require that they shall all be members of the religious society of Friends; but as the school rules will be very few in number and very simple, it is my wish that none may be sent contrary to their own inclination, nor any one who would not be likely to be good examples to the other scholars, and treat them with kindness and affection.

The price for board and tuition will be two hundred Dollars per annum, one quarter always to be paid in advance—no restrictions respecting the kind of clothing are intended, nor respecting the frequency of the changes that parents may require; the washing will be charged at the ordinary price per dozen—children may be admitted for one quarter only, and such as are entered for a longer period, may nevertheless be removed at the expiration of any quarter.—The communication with Philadelphia will be frequent and easy by stage, and a house of entertainment kept by the farmer for the accommodation of persons having business at the school.

Reading, Writing, Arithmetic, English Grammar, Geography and the use of Maps and globes, will be taught, together with such other branches as the progress of the children and experience may render expedient. The school to open the first of the 5th month next. For further information apply to Edward Stabler, Alexandria, or to

Fan-Sash Making.

METAL FAN-SASHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan-Sash Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expence in procuring the necessary preparations, and relies on public enterprise for success in the undertaking.

Gentlemen in the country, by sending the dimensions of their sashes, can have them made at the same price as it in town.

Valuable Family Medicines.

JUST received, direct from the proprietors, the following valuable MEDICINES, all of which have been in use for a number of years past, in almost every part of the United States; have been highly patronized by people of the first respectability; and approved by those who have had occasion to make use of them, for the cure of those disorders for which they are severally calculated.

Dr. Lee's Genuine (Windham) Bilious Pills,

Universally known and used throughout the United States as a family medicine. The fame of these pills has become so great, that many have attempted to counterfeit them—to guard against this, the proprietors have procured a stereotype label, and each box of Genuine Lee's Pills will hereafter be enclosed in one of these labels, with these words on the sides: "Lee's Genuine Windham Bilious Pills," and on the end of the label the words, "Samue Lee, patentee, &c. L Thompson, agent, joint proprietor," &c. and should any be offered for sale without said label on them the purchaser may be apprised that they are counterfeit.

Dr. Thompson's celebrated Eye Water.

For the cure of inflamed and sore eyes of almost every description. This valuable preparation comes highly recommended from the most respectable sources.—Price 50 and 25 cents a bottle.

Dr. Rawson's Genuine Itch Ointment.

A certain and safe cure for that disagreeable complaint, as well as other irruptions of the skin. Price 37½ cents a box.

Dr. Rawson's Anti-Bilious and Stomachic Bitters,

For weakly and infirm constitutions. Price 37½ cents a box.

Hinckley's Infallible Remedy for the Piles,

A most valuable medicine. Price 50 cents a box.

Thompson's Aromatic Tooth Paste,

For whitening and preserving the teeth—it may be used with the greatest safety. Price 50 cents a box.

Specific Drops for the Tooth Ache,

Which, in almost every case, gives instant relief in that distressing complaint. Price 37½ cents a bottle

Cooley's Vegetable Elixir, for Coughs, Asthmas, Consumptions, &c.

A very valuable medicine in those complaints. Price 50 cents a bottle.

For sale, in Alexandria, by Dr. *Rich'd H. Little*; in Washington City, by Dr. *David Ott*; in Georgetown, by Dr. *John Ott, Otho H. Linthium & Co.* and *Nathaniel Jewitt.*

James Kennedy & Son,

RESPECTFULLY inform the public that they have just received from *LEE's MEDICINE STORE,* No. 46, Maiden lane, New-York a fresh supply of the following valuable MEDICINES:

Hamilton's Worm-destroying Lozenges,

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Teres or large round worm; the Ascarides or small maw-worm; the Cucurbitine or short flat white worm; and lastly, the Tænia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of BILIOUS AND MALIGNANT FEVERS is recommended

HAHN's ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.
